- Been a part various hackathons like HACK WITH HER organized by IEEE society.
- Worked as an Organization Executive in Explore(fest).
- Promoted workshops and events in college.
- Participated in CODEKAZE.

PROJECTS

- **RECIPE APP :**
  Designed a Recipe App using React.js. The Application is based on the concept of displaying all the recipes containing the ingredients which we provide as input in the search box. We can give one or more ingredients.

- **MEME GENERATOR :**
  In this React App we have two text fields in which we enter the first text and last text. After writing we click the button, it creates a meme with and the text written on it.
